CHARLOTTE

PREFACE

We take pleasure in presenting to our patrons the seventeenth volume of the Charlotte City Directory. It has been the aim of the publishers to make the Charlotte Directory a medium to display the progress the city is making in business and population. There is no publication connected with any city that so thoroughly exhibits the industrial, commercial and business proclivities as a city directory.

In the alphabetical list, names of all inhabitants 18 years or over are taken, giving the most reliable data for estimating the population.

The Classified Department shows a complete exhibit of the various kinds of business and the extent to which it is represented.

The Miscellaneous Department represents the condition of the government, churches, societies, etc., and the Advertising Department, the energy and enterprise in the business circles.

In preparing this book, the publishers have spared neither time nor expense, and if errors occur, and any omissions made of individuals, you may rest assured it is no fault of the publishers, as it generally is the fault of the public, in failing to supply the required data, as every house is visited, and trained men ask the necessary questions, which with the co-operation of the public in general, go toward making a complete City Directory. The intentions of any reliable publisher are for improvement, and the public can always rely on getting as accurate a directory as circumstances will permit.

Complete estimations in regard to a city's population are through necessity, enjoined upon the directory publishers, and sustained by the contents of the publication.

This volume contains 20,096 names of individuals; using the conservative multiple of $2\frac{1}{2}$ times to represent the names of married women and children not taken indicates a population of

50,240.

While this may not agree with the United States census it must be remembered that the directory canvass is more thorough, and made by trained men, and is not confined to the city proper, but includes all the immediate suburbs, which are practically part of the city.

In conclusion we desire to thank the public in general for the courteous way in which all required information was given, and the business men in particular for their patronage, which makes a City Directory possible. This publication will be made annually as heretofore.

Yours Truly,

PIEDMONT DIRECTORY CO.

Don't Get Stuck

By advertising in a frivolous manner. The City Directory carries the untold news (which is not frivolous nor funny), of the most progressive dealers of today.

WRITE FOR RATES

*Facts worth
while*

Mr. Merchant

Your trade is not Limited
to your Immediate Neighbor-
hood.

THE DIRECTORY

Brings you in close touch
with remote parts of the City.

Get Wise to These Facts It Will be Worth While

The Mechanic may be limited
by his trade, and have to ham-
mer along the same old line.
But you have a wide field.

Take my advice

And Be Progressive

Increase your business by
advertising. The up-to-date
merchant never gets more busi-
ness than he can handle.

*Is this the height of
your ambition?*

BRANCH OUT

Directory Advertising will bring satisfactory results.

"A word to the wise should be sufficient."

Biddle University

CHARLOTTE, N. C.

Biddle University, founded by the Presbyterian Church in the U. S. A., has four departments, namely, Normal and Preparatory, Arts and Sciences, Theological and Industrial.

The Preparatory and Collegiate Departments have each two courses of study, Classical and Scientific; the Scientific omitting the Greek and Latin Classics.

The Normal and Preparatory School is designed to prepare the student for teaching and for business life, or for entering the School of Arts and Sciences.

All students in the Preparatory course are required to take some trade and report every day for work in the Industrial School. College students may also take trades. At present several trades are being taught—Carpentry, Printing, Bricklaying, Plastering, Shoemaking and Blacksmithing. One-fourth of the time in recitation hours is devoted to industrial training.

The Collegiate Department consists of four years, the Theological three. The course of study prescribed in the Theological Department is liberal and practical. Besides the ordinary English subjects of the Theological Seminary, students who have taken a College course, or its equivalent, pursue exegetical study of the Greek and Hebrew Scriptures in the Junior and Middle years. Where the previous training of students has been partial and his years are mature a shorter and purely English course has been provided.

The school year begins the third Thursday in September, and closes the first Wednesday of June.

For information or catalogue, write President H. L. McCrorey.

L. C. SMITH & BROS. "BALL BEARING, LONG WEARING" TYPEWRITERS

Edison Dictating Machines. Typewriters Repaired and Rebuilt.

J. E. CRAYTON & CO.

INBUILT

*That is one secret
of the success of
this Typewriter.*

Necessary devices which, with other typewriters are attached (at an extra price) or else built as parts of "special" machines with only one use (at a more exorbitant price), are *inbuilt* in every NEW MODEL

ALL
the writing
ALWAYS
in sight

Some Inbuilt Features:
Card Writing, Decimal
Tabulating, Condensed
Billing, Color Work
and Stenciling.

L. C. SMITH & BROS. TYPEWRITER

All these kinds of work—and others—done by one simple typewriter, our regular correspondence machine, *without any extra cost* in attachments.

Gardner Ball
Bearing Type-
bar Joint.

BALL BEARINGS — throughout — typebar, carriage, segment — all important frictional points made anti-frictional.

The *inbuilt* devices save you the price of attachments (costly things, these attachments); the ball bearings save work and wear.

And this *complete* machine costs no more than others which must have expensive attachments to make them complete.

To buy a typewriter without investigating the L. C. SMITH & BROS. would be like buying silver without looking for the "Sterling" mark.

Send for the Free Illustrated Book.

Kirkwood's Dairy

Two and one-half miles on Avondale Avenue or Dilworth Road.

— PHONE 836 —

We Own and Control Over 300 Fine Milch Cows—Well Fed and Attended.

Sanitary! Yes, Sanitary.

From Kirkwood you get Kirkwood's Baby Special and Pure Milk, from tuberculin tested cows, milk handled in the light of recent discoveries and developments of modern science with regard to the care of milk.

Every bottle hermetically sealed by a costly patented capping machine. Thus every bottle is made air, water and dust tight, thereby lessening the danger from outside infection.

Visit Kirkwood and be convinced. Observe with your own eyes our sanitary method of handling milk for your table, the baby, the sick room.

CONSULT THE CHARLOTTE DIRECTORY

Queens College

CHARLOTTE, NORTH CAROLINA

Will open Wednesday, September fifteenth, in its beautiful campus of 50 acres in Myers Park.

Electric cars to college entrance.

Five new buildings: Administration, Music, Science and Art, and two Dormitories.

Equipment new and modern. Sanitation unexcelled.

B. A. Degree, Schools of Music, Art and Expression.

All out-door sports.

Faculty of college grade from the best universities and colleges.

Queens Fitting School

Queens College does not wish to curtail or to discourage the work of the High Schools within its territory, but would like to aid in building up the standards and efficiency of the High Schools.

There are, however, in our State and in our neighboring States scores of High Schools doing only one or two or three years of work. The girls who finish these schools and who wish to go to college must have a school in which to finish their preparation. We offer such a school.

Queens Fitting School employs only the best teachers.

Its standards of thoroughness and efficiency are the same as those of Queens College.

Its students receive the care and supervision necessary for training young girls, and they share the College home and enjoy the College life.

Day pupils who desire to attend a private school will be cordially welcome, as heretofore, to the classes of both the College and the Fitting School.

Literature on request.

JOHN L. CALDWELL, A. M., D. D.
President.

The City Directory

Why?

There's a Reason

Because, just as the live wire which carries the current which turns the wheels of numerous industries, so does the City Directory carry the Lights to the buyer seeking goods in your line.

Because, just as the magnetic needle points the way to the mariner, so does the Directory point the way which brings together the Buyer and Seller.

Nuff Sed

Up-to-Date Methods

In this Progressive Age the City Directory is found on the Busy Man's desk.

Because he is wise to its true value, the cost of about a penny a day means to him the Saving of Dollars.

When writing advertisers mention the directory.
